Hempel Record of TBT-Free Antifouling

- Hempel's Antifouling
Classic 76110

Hempel A/S hereby confirms that Hempel's Antifouling Classic 76110 applied on the underwater area of the vessel

Ship name:	KMP BARUNA RAYA
IMO No.:	---
Date applied:	05 January 2025
Yard/location:	PT. Dok dan Perkapalan Gandasari

is a TBT-free antifouling paint that complies with the requirements to antifouling systems as stated in the IMO Convention on the Control of Harmful Antifouling Systems on Ships (AFS/CONF/26), adopted 5 October 2001 in London.

Hempel's Antifouling Classic 76110, colour 50000 (red), is a TBT-free self-polishing antifouling paint type, containing the following active ingredients:

- Copper(1)oxide (CAS No. 1317-39-1)

This Certificate merely confirms that the delivery of antifouling paint has taken place to the vessel mentioned above. Being a manufacturer of Hempel's Antifouling Classic 76110 Hempel keeps records of deliveries of TBT-free antifouling paints and inspections carried out in relation thereto.

The IMO Guidelines for Survey and Certification adopted October 2002 govern the issue of the Statement of Compliance and the issue of the International Anti-fouling System Certificate. This Hempel declaration contains the information required by the IMO Guidelines. The information will also be available from the Safety Data Sheet.

Hempel A/S and any of its subsidiaries and/or affiliates cannot be held liable for any consequences arising out of or in connection with the information provided in this certificate.

You are welcome to contact Hempel A/S for further details.
